APPLICATION

The DRS is a modular railing system, which can be used for perimeter fencing where there are no pre-existing railings and where penetrating the roof layers must be avoided. Can be installed on roofs with up to 10° degrees slope.

100% recyclable

TECHNICAL DATA

	DRS-light	DRS-standard
Module size (LxWxH) (cm)	100x60x110	104x112x110
Railing material	Steel (hot dip galvanized)	
Planter dimensions	90x60x60	50x50x36,5*
Planter material	UV resistant MDPE	polypropylene

*can be ordered optionally
