

Port Piraeus Plaza (PP1, PP2 & PP3)

Project information

LOCATION: PIRAEUS

SUPERVISION: DIMAND S.A

ARCHITECTURAL DESIGN: PP1 & PP2: ASPA DESIGN - URBAN ENVIRONMENTAL REFORMATIONS S.A. , PP3: 3SK

CONSTRUCTION: CORE SA (PP1), BALLIAN (PP2)

YEAR OF IMPLEMENTATION : 2018

Description

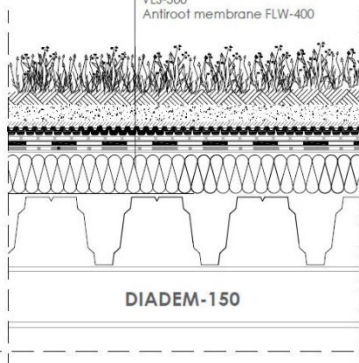

Papastratos' old premises are transformed into impressive office buildings under the supervision of DIMAND. PP1 was completed in 2018 and received the LEED Gold Award. Elements that stand out in the design of the buildings are the green roofs. DIADEM systems (DIADEM-150, DIADEM-350, DIADEM-750) were selected for the construction of the project. Buildings PP2 and PP3 are in progress and are expected to be completed by the end of 2019.

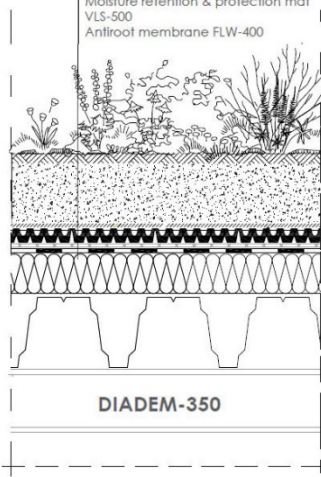

Vegetation
Growing media SRM
h=30-35 cm
Mineral substrate MS h=25-40 cm
Filter sheet VLF-200
Drainage board Diadrain-60H
Moisture retention & protection mat
VLS-500
antirroot membrane FLW-400

Vegetation
Growing media SEM
h=20-25 cm
Filter sheet VLF-150
Drainage board Diadrain-25H
Moisture retention & protection mat
VLS-500
Antirroot membrane FLW-400

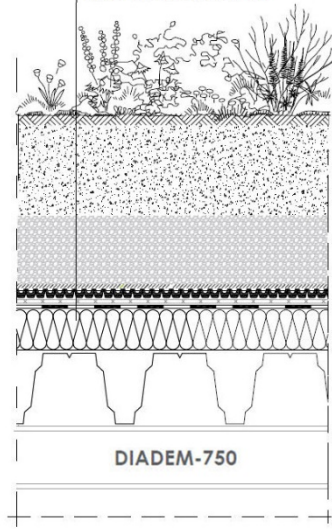

Vegetation
Growing media SRM
h=30-50 cm
Filter sheet VLF-200
Drainage board Diadrain-40H
Moisture retention & protection mat
VLS-500
Antirroot membrane FLW-400
